

# 2021 CASMEC All-State Ensembles will be Virtual!

## All-State just got a little closer to home.

As our Nation continues its battle with the COVID-19 Pandemic, all of the organizations at CASMEC want to make sure that our students will still have the chance to make music with the best in the State! We are excited to be partnering with Virtual Arts, Inc to create unique and entertaining performances of this year's All-State Ensembles. Every All-State student musician will receive a "Welcome Box" filled with All-State swag and will be able to meet their renowned conductor to begin our journey of making music from a distance.

Over the course of two rehearsal blocks (January 23rd and February 13th) our musicians will spend time with conductors, master class clinicians, fellow all state members, and will even have the chance of attending clinics tailored for students! We can't wait to welcome you to this once in a lifetime experience this winter for the 2021 California All-State. Make sure to check your organization's websites for audition windows. Happy auditioning!
